Sir Edward challenged the government to make an unequivocal declaration whether it had anything in its mind bordering on the Sinn Fein effort to courageously let the world know it would brook no interference, whether by agitation in the United States, on the continent or elsewhere.

## "BAYER CROSS" ON **GENUINE ASPIRIN**

The use of creams containing animal grease sometimes causes hair to grow. You run no risk of acquiring superfluous hair when you use ordinary mercolized wax. There is nothing better for a discolored skin, as the wax actually absorbs the offensive cuticle-gradually, gently, so there is no detention indoors and no inconvenience. The discarded complexion naturally is replaced by a clear, smooth, healthy one—full of life and expression. It's the sensible way to get rid of a freckled, tanned, over-red, blotchy or pimpled skin. Just procure an ounce of mercolized wax at any druggist's and apply nightly like cold cream, erasing in the morning with soap and water. It takes a week or so to complete the transformation.
